

Language development

Language is the key that will unlock the door to a child's future learning.

I ask and answer lots of questions that use 'who', 'what', 'where', 'why' and 'when'.
I am using a lot more new words and can join my sentences together to make a story.

I can understand instructions with three to four words like 'put dolly in the box', 'give me the big blue ball'.

I enjoy make-believe play. I can feed dolly and brush dolly's hair.
I am starting to take turns and play games with my friends.

I can't quite use my 'l, sh, ch, r, th' sounds yet, but that is normal for a three to four year old.

I love listening to stories and nursery rhymes like Twinkle, Twinkle Little Star...
I can retell my favourite stories in my own words.
I am starting to like simple jokes.

I can use words like full and empty, big and small. I can also use 'his', 'her' and 'they' correctly when I am talking.
